About

A good designer is someone who can successfully apply the process of design to any material.

Education

Rhode Island School of Design – BFA, 2016

Major in Furniture Design, Minor in Nature Culture Sustainability Studies

Experience

Designer, USAA Design; San Antonio, Texas

2016 - Present

Leading design work for USAA's modernization efforts. This included the Banking, Insurance, & Investments account homepage, global information architecture, product page experiences, rebuilding both native iOS & Android apps, and contributing to a design language system.

Photo & Video Coordinator; Creative Mornings San Antonio

2019 - Present

Organize photo and video coverage of monthly talks and upload recorded assets to the Creative Mornings website.

Technician Maintenance Assistant; Providence, Rhode Island

2015 - 2016

Refined my knowledge of product fabrication tools by working alongside metal and wood shop technicians to maintain and service machinery.

Studio Monitor; Providence, Rhode Island

2012 - 2016

Monitored wood, metal, and glass studios. This included teaching hot glass casting, assisting students with their projects, ensuring all machinery was being used properly, and maintaining a safe working environment.

Skills

Processes

Design Research & Synthesis – Ideation – Sketching – Prototyping – Strategic Visioning – Development Support – Collaborative Working

Execution

Experience & interface design for web and mobile platforms – Designing reusable design language systems – Furniture Design – Product fabrication in wood, metal, glass, plastic – Digital Photography
